LEADTEC CO., LTD.

EXPECTATION OF LEADTEC

LEADTEC operation statement and purpose: And with a collection of quality / brand consensus of the Taiwan supplier partners, to promote its quality and innovative design of bicycle parts sales plans. LEADTEC has the power of multi-partners, professional marketing and sales agents, corporate philosophy and purpose of planning a gradual conversion in accordance with the layout and promote the market. A more self-expectations can bring innovative marketing practices or the media Acting to help improve the overall brand value and distribution partners to consumers and the brand loyalty. Further promote long-term image quality and value. Let the market and global synchronization can also get the newest Product of the Year.

Our operation and services is to promote brands in excellent quality and meet the market value in reasonable price, to provide integrated marketing and brand promotion activities. We are the bridge for manufacturing partners and consumers and provide communication with each other. LEADTEC raises Consumer identity and brand value.
