For Disc brake

Organic
(Resin)

Organic compound is specially formulated to produce excellent all around performance, perfect for everyday use.

Sinter
(Metal)

Sintered compound is designed to produce consistent performance in all condition, offer high durability and high resistance to contamination by mud, water, sand and grit.

For Normal brake

Compatible with braking systems on road brake.

Compatible with braking systems on caliper brake.

Compatible with braking systems on V-brake.

Compatible with braking systems on cantilever brake.

Compatible with braking systems on Eletric-bike.

Disc Pads

We offer a wide selection of disc pads for different brands and materials. Designed for any weather and rough conditions for the riders to ride with comfort and safety.
